Distributor Announcement

October 5, 2017

Benzene Specific PID Now Available for GX-6000

The GX-6000 is a game changer and it just changed the game again with the Benzene Specific measuring mode. With the addition of the more selective 10.0 eV PID sensor the GX-6000 can now detect the BTEX family of VOC's including benzene, toluene, ethylbenzene, and xylene with a range of 0 - 100 ppm and a library of over 300 VOC's. By using the PID pre-filter tubes and the filter tube holder, the GX-6000 can specifically monitor for benzene at a range of 1.01 - 50 ppm by filtering out all other VOC's. The filter tube holder has a unique break away design to avoid accidental damage if impacted or dropped. The filter tube holder also includes a safe and convenient glass breaker for the filter tube tips.

Dual Channel PID Capable

The GX-6000 now has 3 PID ranges utilizing 2 sensors available, a 10.6 eV and the new 10.0 eV, which can be installed into either of the GX-6000's two smart sensor slots. The GX-6000 is the only PID instrument on the market with the ability to have two PID sensors functioning in one instrument. Use the broad range 10.6 eV PID sensor for a preliminary investigation, then switch to benzene mode for a highly specific benzene measurement.

How to add Benzene Mode to Existing GX-6000

For customers who already own a GX-6000, but would like to add the new Benzene Mode capability it can be done in the field. Simply upgrade the firmware utilizing the instruction link below and order the Field Upgrade Kit, part # 75-0039, which includes the new PID-003L sensor, the pre-filter tube holder and a box of pre-filter tubes.

Distributor Announcement

Distributor Discounts

The Standard Benzene GX-6000 discount for all RKI fully authorized distributors is 35% off list price. Quantity discounts are available at 38% for 5 to 9 units and 40% for 10 or more units. See the GX-6000 Extended Discount Program for details or contact your regional representative.

Sales Demo Discount

Sales demo discounts are also available for Benzene GX-6000 instruments or Field Upgrade Kits at 50% off of list. See RKI's Demo Equipment Policy for details.

Ordering Information

Part #	Description	List Price
72-6XZX-A	GX-6000 for Benzene specific (0 - 50 ppm PID) with tube holder, box of 10 tubes, and alkaline battery pack	\$3,560
72-6XZX-C	GX-6000 for Benzene specific (0 - 50 ppm PID) with tube holder, box of 10 tubes, Li-Ion battery pack	\$3,810
72- 6XZB-C	GX-6000 for Benzene specific (0 - 50 ppm PID, 10.0 eV lamp) with tube holder, box of 10 tubes, VOC's (0 - 6,000 ppm PID, 10.6 eV lamp) (Li-Ion battery pack, and charger)	\$5,010.00
80-0174	Benzene pre-filter tube holder, GX-6000	\$140
33-7128	Benzene pre-filter tubes, GX-6000, box of 10 tubes	\$78
33-7128-05	Benzene pre-filter tubes, GX-6000, 5 boxes with 10 tubes/box	\$375
PID-003L	Sensor, PID, Benzene specific 0 - 100 ppm for GX-6000	\$1,840
75-0039	Benzene specific upgrade kit with PID-003L sensor, Benzene pre-filter tube holder, and Benzene pre-filter tubes (box of 10 tubes)	\$2,065
