

Who Is RKI?

RKI Instruments, Inc. is an innovative gas detection company located in Union City, California. RKI began in 1994 with the belief that distributors and customers deserve a permanent reliable source for advanced gas detection instruments and sensors.

RKI is partnered with Riken Keiki Company, Ltd., the world leader in gas detection and sensor technologies. Celebrating over 70 years in the gas detection business, Riken has over 150,000 points of detection world wide in the semiconductor industry alone. RKI is the executive North American supplier of Riken products.

RKI is also known for unique product development. Through ingenuity and years of industry experience, we have developed our own line of gas detection instruments and accessories to complement the Riken product line. All of RKI developed products designed around Riken's long lasting field proven sensors.

The EAGLE 2™ is an updated version of our highly regarded EAGLE portable gas monitor offering enhanced new features and capabilities. With many configurations and the capability of simultaneously monitoring up to 6 gases, it is a versatile portable instrument detecting a wide range of toxic and VOC gases. RKI also has designed and introduced the following fixed system controllers and detectors:

Beacon 110 - Single Channel Wall Mount Controller
Beacon 200 - Two Channel Wall Mount Controller
Beacon 410A - Four Channel Wall Mount Controller
Beacon 800 - Eight Channel Wall Mount Controller
Direct Connect - LEL / H2 / O2 / CO / H2S
S2 Sensor - Transmitter
M2A Series - Stand Alone Explosion Proof Transmitter
Explosion Proof Tri-Sensor Head
GD-70D Series - Intelligent Gas Detector
Digester Gas Monitor

RKI's continued success is attributed to our seasoned professionals and exceptional customer service that we're proud to offer. Each RKI employee has an average of 10 years of gas detection experience and our company's top six executives combined industry experience totals more than 140 years.

This combination of quality products, experience, knowledgeable and supportive people provides you with the ability and opportunity to confidently face almost any gas monitoring application with equipment built to last. Our policy is to provide strong, quick support to our customers and outlets, and to stand fully behind our products.

Who is RKI Instruments? RKI is gas detection for life.
